

Annual On-Property

Ram Sale

Catalogue

Wednesday 27th September 2023

Sale Commencing at 1pm

740 Blight Road, Highbury

SIRE INDEX

MS – Moorundie 102 ram purchased for \$22,000 by Kamora Park. ET bred by NE73. Produces big, long stapled sheep

BAN – Banavie sire

SPSYN – By Seymour Park sires out of maiden ewes

NO SIRE TAG – Retained sires fitting the Seymour Park type. Producing safe, uncomplicated sheep

COR419 – Coromandal 419 sire purchased for \$10,000. Very well balanced sheep with exceptional structure and doing ability. Cull to keeper ratio is exceptional

MSP36 – Moorundie Park ram purchased for \$60,000. Grandsire Seymour Park 111. Very big, long ram with good pure medium wool

WP226 – Wallaloo Park 226 purchased for \$76,000. His lambs are very rich with massive wool cut and good deep bodies.

ANG – Angenup sire purchased for \$10,000. Grand Champion Poll Merino at Wagin Woolorama. Producing big, plain high rainfall sheep

Sire Breeding Key

ANG – Angenup

MS – Moorundie 102

BAN – Banavie

MSP36 – Moorundie Park

COR419 – Coromandal 419

SPSYN – SP sires out of maidens

WP226 – Wallaloo Park 226

Ram Data

Data Notes

The values are reported as raw values and as a variation in Standard Deviation of the candidates selected as superior ram weaners. Those rams were grown on as a group as candidates for Seymour Park’s own use and the sale team. Each data collection event identified rams that did not meet Seymour Park’s very high standards and were culled from the sale team. The rams that were initially selected to form the group were superior and the average of this group is superior to the average of the entire flock. The reported values are therefore deviations from the mean of this superior group, not the mean of the entire male drop. That means the better scores are for the very best of Seymour Park’s best, not simply the best of all Seymour Park rams. If all rams were included, the values would be even better.

Fleece Weights are not included for lots 1 to 30 as they were shorn about one month prior to the main group and had been shingled prior to shearing.
